CAREER OBJECTIVE

I am an aspiring Python Full Stack Web Developer with skills in Python and the Django framework. I have experience building dynamic, database-driven web applications with a strong focus on user experience. I am eager to take on entry-level opportunities, utilizing modern development technologies and AI-assisted tools to enhance productivity and improve code quality.

EDUCATION

Malla Reddy Institute of Engineering and Technology
Bachelors of Technology (Computer Science Engineering) – 9.39
10/2022 – 08/2026 Telangana

PROJECTS

AI-Powered Recipe & Meal Planning Application (2026)

- Developed an AI-powered recipe generation web application using Python, OpenAI API, HTML, CSS, JavaScript, and Bootstrap, generating customized recipes from user-provided ingredients and preferences.
- Integrated OpenAI GPT-3.5 Turbo with structured prompting to generate step-by-step cooking instructions, dietary-specific recipes, cuisine-based recommendations, and personalized 7-day meal plans.
- Implemented backend REST API endpoints for recipe generation, meal planning, shopping-list extraction, AI image generation, recipe sharing, and user authentication, with SQLite database integration for persistent recipe storage.
- Built interactive frontend functionality using JavaScript Fetch API, asynchronous requests, local Storage.

Translator Project (2026)

- Django based application for multilingual text translation incorporating various libraries.
- Developed a Django-based full-stack web application for multilingual text translation, implementing backend logic, URL routing, and dynamic form handling.
- Unified Python libraries such as google translator to enable real-time language translation across multiple languages.
- Implemented text-to-speech functionality using gTTS and playsound to convert translated text into audio output.
- Applied clean coding practices and standard design principles to ensure scalability of the application.

CERTIFICATIONS

- Python basics – Hackerrank
- Web development -Internshala
- Technology –Deloitte
- Data Analytics –Deloitte
- AI Aware –By Intel
- Introduction to NLP –Infosys springboard

SKILLS

- | | |
|---------------------|---|
| • Languages | : Python, C |
| • Analytical tools | : Excel, PowerBi |
| • Python Frameworks | : Django, flask, FastAPI |
| • Frontend | : HTML5, CSS3, JS |
| • Database | : MySQL |
| • Python Libraries | : Pandas, NumPy, Googletranslate, gTTS, Playsound |
| • AI Tools | : Replit, Bolt, Cursor |
| • Version Control | : Git and Github |

SOFT SKILLS

Communication | Problem Solving | Time Management | Adaptable | Thought Organization
